# Subpart A—Size Eligibility Provisions and Standards

PROVISIONS OF GENERAL APPLICABILITY

### § 121.101 What are SBA size standards?

- (a) SBA's size standards define whether a business entity is small and, thus, eligible for Government programs and preferences reserved for "small business" concerns. Size standards have been established for types of economic activity, or industry, generally under the North American Industry Classification System (NAICS).
- (b) NAICS is described in the North American Industry Classification Manual—United States, which is available

from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161; by calling 1(800) 553-6847 or 1(703) 605-6000; or via the Internet at http://www.ntis.gov/yellowbk/ 1nty205.htm. The manual includes definitions for each industry, tables showing relationships between 1997 NAICS and 1987 SICs, and a comprehensive index. NAICS assigns codes to all economic activity within twenty broad sectors. Section 121.201 provides a full table of small business size standards matched to the U.S. NAICS industry codes. A full table matching a size standard with each NAICS Industry or U.S. Industry code is also published annually by SBA in the FEDERAL REG-ISTER.

## § 121.102 How does SBA establish size standards?

- (a) SBA considers economic characteristics comprising the structure of an industry, including degree of competition, average firm size, start-up costs and entry barriers, and distribution of firms by size. It also considers technological changes, competition from other industries, growth trends, historical activity within an industry, unique factors occurring in the industry which may distinguish small firms from other firms, and the objectives of its programs and the impact on those programs of different size standard levels.
- (b) As part of its review of a size standard, SBA will investigate if any concern at or below a particular standard would be dominant in the industry. SBA will take into consideration market share of a concern and other appropriate factors which may allow a concern to exercise a major controlling influence on a national basis in which a number of business concerns are engaged. Size standards seek to ensure that a concern that meets a specific size standard is not dominant in its field of operation.
- (c) As part of its review of size standards, SBA's Office of Size Standards will examine the impact of inflation on monetary-based size standards (e.g., receipts, net income, assets) at least once every five years and submit a report to
